## STAMP Benefits

A statement by  
Master Del Pe,  
Founder of  
STAMP

Master Del Pe in Slovenia

**STAMP helps kids and teens maximize their performance in school, sports and 5 areas of life!**

*“STAMP is a pioneering training program that **maximizes performance in kids and teens** so they can **experience more balance, confidence, resilience and creativity in their lives.***

*It is an immersion program that fosters an experiential learning style. In just 7 days, kids and teens can learn life skills such as **decision making and situational management – all leading to greater self-mastery.**”*

## STAMP goals

- a. **STAMP will help your children stay out of trouble** and they will learn how not to become victims of other kids. They will learn **self-control, self-discipline and self-initiative strategies.**
- b. **Another advantage of STAMP is our ability to turn weaknesses into strengths.**
  - Those who are good in math or science, but are uncomfortable in social situations, will learn new strategies to develop their heart/emotional intelligence so it's easier to handle social situations.
  - We can help bullies channel their will-power **in a positive direction.**
  - Kids and teens who are “clumsy” or not aware of their environment will become more balanced.
- c. **STAMP participants will learn not only how to be competitive**, but also the art of losing – essential so they don't feel like a victim or a failure. And kids and teens will learn how to win with humility.

## STAMP: How we do it

**STAMP combines methods distilled from the best of Eastern philosophies and blended with Western practicality.**

- a. STAMP participants learn **Aquarian Martial Arts-Yoga Science (AMAYS)** and the **5 levels of Intelligences.** This will help them to learn faster and develop their mind like an Einstein, their emotional intelligence like Mother Teresa and their instinctive intelligence like a martial arts practitioner.
- b. STAMP helps to heal through BEwell Science which will be offered during the program – 7 days of continual healing by our energy medicine specialists is a big benefit in itself.

### **What is Aquarian Martial Arts-Yoga Science (AMAYS)**

Aquarian Martial Arts-Yoga Science (AMAYS) integrates the different types to build martial arts for power, confidence and balance along with yoga and meditation for focus, centering and balance.

It is important for kids and teens to learn how to have discipline to build positive will-power. There is a relationship between will-power and anxiety, fears and worries. The greater their will-power, the less the emotional turmoil they will experience. Having love alone is not enough. Without will-power many people cannot finish what they start, or focus on achieving their goals.

Aquarian Martial Arts-Yoga Science (AMAYS) includes many life tools and psychologies. This is not typical martial arts training. Master Del Pe has trained many children and teens (as well as adults) in martial arts around the world. He uses humor in his training – and even scientifically inclined kids find that his training style stimulates their appetite for fun.

Combining martial arts with yoga gives kids and teens new tools to maximize their performance in all areas of life.

After STAMP, their ability to control their emotions, finish their homework and projects, make better choices in social situations, develop greater self-confidence and respect for others will be awakened further.

### **What about fun**

There will be games from around the world and other activities, so learning through STAMP is enjoyable. STAMP participants experience the sense of fulfillment that comes from discovering and doing. There will be group activities, social time, movies, field trips, arts activities, recreational activities like mini golf, bowling, puzzles and time to make new friends. Each participant will get an opportunity to shine. The program will flow according to the “STAMPers'” needs. Master Del Pe will lead and direct it along with his international team of trainers.

## Will STAMP help my child to mature?

### Will there be time to play with other children?

**Yes.** Participants will interact with other kids from different countries. We will group them before and after to compare

### Will my child change?

**Yes.** The loving Mother Teresa types will develop faster instincts. The Napoleon types will have opportunities to develop more win-win skills. The entertainer type of kids like Oprah will learn how to focus on finishing what they start. The scientific type of kids will develop a bigger heart and enjoy socializing more.

how they behave and show them what they have learned. We will help kids not be afraid and to let go as well

**Kids will learn how to create games and toys – how to have fun with just about anything.** We will play ancient and modern games. They will learn how to lose with dignity and win with humility.

## Who will be leading STAMP?

**Master Del Pe is the Director of the program.** An international team of Trainers will assist Master Del Pe at STAMP. Our team includes doctors, pediatricians, psychologists and more.

We will bring the world to your child/teen! In addition to the games, martial arts, videos, group discussions and just plain fun, your child/teen will have the opportunity to meet children and trainers from around the world.

*Master Del Pe teaches a STAMP participant how to defend himself.*

## STAMP Logistics

### Does STAMP have a Code of Conduct?

**Yes.** STAMP follows the behavior code outlined by the State of Texas and we will make it as universally accommodating as possible. STAMP rules outline our policies and must be signed by parents and STAMP participants.

Parents will be notified if their child/teen is having difficulty controlling their behavior. Participants who are continuously disruptive to others or the program can be expelled. We will do our best to heal and coach them first. We will not easily give up on your child.

### Is health insurance required?

**Yes.** Participants must have health insurance coverage while attending STAMP. There are several options for obtaining health insurance. For US residents, it is possible to buy a “short-term” policy if you child is not already covered.

For people flying to Texas, airlines often offer insurance plans for a small additional fee. We can suggest resources for international or short-term insurance.

### Will activities be indoors or outdoors?

The Houston area can be hot during the summer so many of our activities will be indoors, in air conditioned spaces. Depending on the weather, this can include Aquarian Martial Arts-Yoga, games and other activities.

Outdoor activities will focus on entertainment and sports.

A STAMP participant practices new skills by selling her artistic creation to the highest bidder. Senior STAMP Trainer is thrilled to purchase the unique artwork from this new businesswoman.
